PROJECT 2008/2009 :

ASSISTANCE IN HOUSE RENOVATION & RECONSTRUCTION

INTRODUCTION

Our program of assisting penniless families to renovate or rebuild their houses will focus on the hamlets of Da Ban and Tu Bông.

Example of rebuilt houses

Since April 2008, the establishment date of our association, we have helped financially 22 families to renovate/rebuild their houses. They can enjoy dryness since the late rainfalls of the year 2008 thanks to the new roof and walls of their new houses

The inhabitants of the area live mainly upon the production of charcoal in the mountains. The average salary is around SFr 70.-/month. In the rainy season (from August to January), they have no work.

Having even not enough food, they cannot afford to renovate their house. Therefore, their home conditions are appalling: the roof and the walls are totally leaked when it rains.

OUR ACHIEVEMENTS IN 2008/2009

Thanks to donations by private persons and 2 enterprises, RETRIPA in Crissier and OPEN Scrolling Technology in Belgium, we rebuilt or renovated 22 houses in those areas.

OUR NEXT ACHIEVEMENTS IN 2009

We have recorded in the hamlets of Tu Bông and Da Ban 60 houses with tarpaulin roof and walls which are not capable to stand in monsoon winds and rains.

We try to renovate every month one house, thus 12 in the year 2009, with the donations and income from our diverse activities. For instance, we collected SFr 2'525.- as profit made from our meal on 7 February 2009. With such amount, we were able to totally rebuild a house of 30 sqm (SFr 2'000.-) and renovate another.

These 4 houses are part of our next achievements.

ESTIMATED BUDGET FOR THE YEAR 2009/2010

| Project | | SFr / house | SFr |
|--|--|-------------|-----------------|
| HOUSE RECONSTRUCTION (2 houses per month) | 24 houses of 30 m ² (7,5 m x 4m) | | |
| | With tile roof and brick wall | 2'000.- | 24'000.- |
| | With steel roof and brick wall | 1'500.- | 20'400.- |
| | TOTAL SFr: | | 44'400.- |
